Keep your files safe

Dropbox lets you save photos, docs, videos, and other files —
all in one place — and automatically backs up your stuff.
So if your computer breaks down or you leave your phone on
the train, your stuff is safe.

Add files to your Dropbox

On Windows or Mac

1. Make sure you've <u>installed the desktop app</u> on your computer.

2. Drag and drop files into the Dropbox folder. That's it!

Send large files

Need to send a file? Just add it to your Dropbox, share a link to it, and you're done. No matter how large the file is, anyone with the link can view or download a copy — even if they don't have a Dropbox account.

Share a link to a file

On dropbox.com

1. Sign in to dropbox.com, and find the file or folder you'd like to share.
2. Hover over the file or folder, and click the **Share** button that appears.

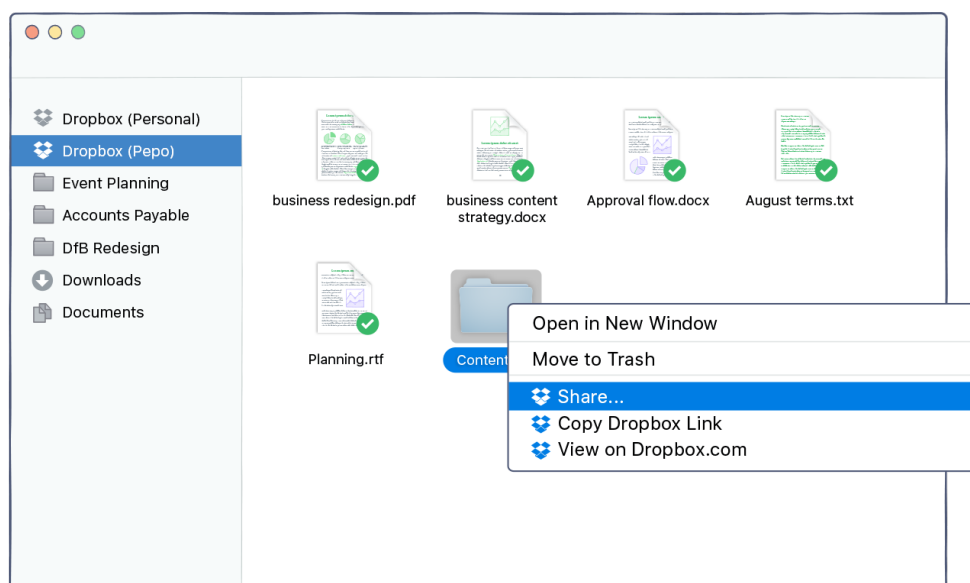

3. Enter the email addresses of the people you want share a file with, and click **Send**. Or click **Create a link** to share with anyone, even if they don't use Dropbox. You can copy and paste the link into an email, instant message, or wherever you'd like people to access it.

Work on files together

Collaborate on presentations and docs — without emailing files back and forth. Just create a shared folder and add other people to it. When you edit a file in a shared folder, everyone instantly gets the latest version on their devices.

Set up a shared folder

On dropbox.com

1. Sign in to dropbox.com, and click on the **Sharing** tab on the left side of the window.

2. Choose **New shared folder** at the top of the window, select **I'd like to create and share a new folder**, then click **Next**.

3. Enter a name for your shared folder, then click **Next**.
